

## 2018 Farm Bill Summary of Organic Programs and Priorities

The Organic Trade Association’s [Farm Bill platform](#) calls for full support and adequate funding for the USDA National Organic Program (NOP) to keep pace with industry growth, set uniform standards, and carry out compliance and enforcement actions in the U.S. and abroad. It advocates for organic-focused research, risk management tools, data collection and direct dialog between industry and USDA that are critical to organic farmers’ success. It calls for improved access to land and capital, investment in distribution systems and infrastructure, and targeted technical assistance through the utilization of existing USDA conservation, rural development, and other programs to encourage transition to organic.

This side-by-side shows how our priorities advanced in the final 2018 farm bill.

PROGRAM	2014 FARM BILL	OTA 2018 FARM BILL REQUEST	HOUSE BILL	SENATE BILL	FINAL BILL
<b>National Organic Program</b>	\$15 million per year (authorization for appropriations)	FY19–\$16.5 million FY20–\$18 million FY21–\$20 million FY22–\$22 million FY23–\$24 million	FY19–\$16.5 million FY20–\$18 million FY21–\$20 million FY22–\$22 million FY23–\$24 million	FY19–\$16.5 million FY20–\$18 million FY21–\$20 million FY22–\$22 million FY23–\$24 million	FY19–\$16.5 million FY20–\$18 million FY21–\$20 million FY22–\$22 million FY23–\$24 million
<b>Organic Agriculture Research and Extension Initiative</b>	\$20 million per year (mandatory funding)	Increased funding to achieve baseline of \$50 million per year by 2023	\$30 million per year	FY19–\$40 million FY20–\$40 million FY21–\$45 million FY22–\$50 million FY23–\$50 million	FY19–\$20 million FY20–\$20 million FY21–\$25 million FY22–\$30 million FY23 and beyond–\$50 million per year  *the bill provides a total of \$395 million for organic research over 10 years

PROGRAM	2014 FARM BILL	BILL REQUEST	HOUSE BILL	SENATE BILL	FINAL BILL
National Organic Standards Board (NOSB)	No Changes	No Changes	<p>Clarifies that an employee of a farmer can serve on the farmer seat.</p> <p>Increases consultation between NOSB, EPA and FDA on materials review through task forces.</p> <p>Expedited review procedures for petitioned materials for postharvest handling substances related to food safety. *(the original language included in the House draft bill would've created a process for emergency review of crop protection and food safety materials not bound by NOSB authority on the national list. Rep. Davis offered an amendment that passed in committee markup that preserves NOSB's role in all petitions.</p>	Codifies the requirement for an amendment to the National List to be a decisive vote that requires 2/3 of the votes cast at a meeting of the National Organic Standards Board at which a quorum is present.	<p>Clarifies that an employee of a farmer can serve on the farmer seat.</p> <p>Codifies the requirement for an amendment to the National List to be a decisive vote that requires 2/3 of the votes cast at a meeting of the National Organic Standards Board at which a quorum is present.</p>
Other				Includes the national organic program under issues covered by state agricultural mediation programs.	Includes the national organic program under issues covered by state agricultural mediation programs.
